"TEACHER TOM" HOBSON

"Teacher Tom" Hobson is internationally recognized as a thought leader in early childhood education, and is known by many as "the voice of play-based learning." A preschool teacher for nearly two decades in Seattle, he became famous through Teacher Tom's Blog, which boasts some 5,000 articles he authored on play-based learning, and where he continues to post several times a week. He is a sought after speaker, education consultant, teacher of teachers, parent educator, and author of two bestselling books. He broadly shares his pedagogy through courses for early childhood educators, parents, and homeschoolers; produces international ECE conferences (e.g., Teacher Tom's Play Summits); consults with organizations about their ECE programs, and inspires early years audiences at events and conferences around the world.

The background of the slide is white and is decorated with numerous yellow starburst shapes of varying sizes. These starbursts are scattered across the top, bottom, and sides of the page, creating a festive and celebratory atmosphere. The word "Keynote" is written in a large, purple, cursive script font, positioned on the left side of the slide.

Keynote

"TEACHER TOM" HOBSON

Educating Citizens Through Play:

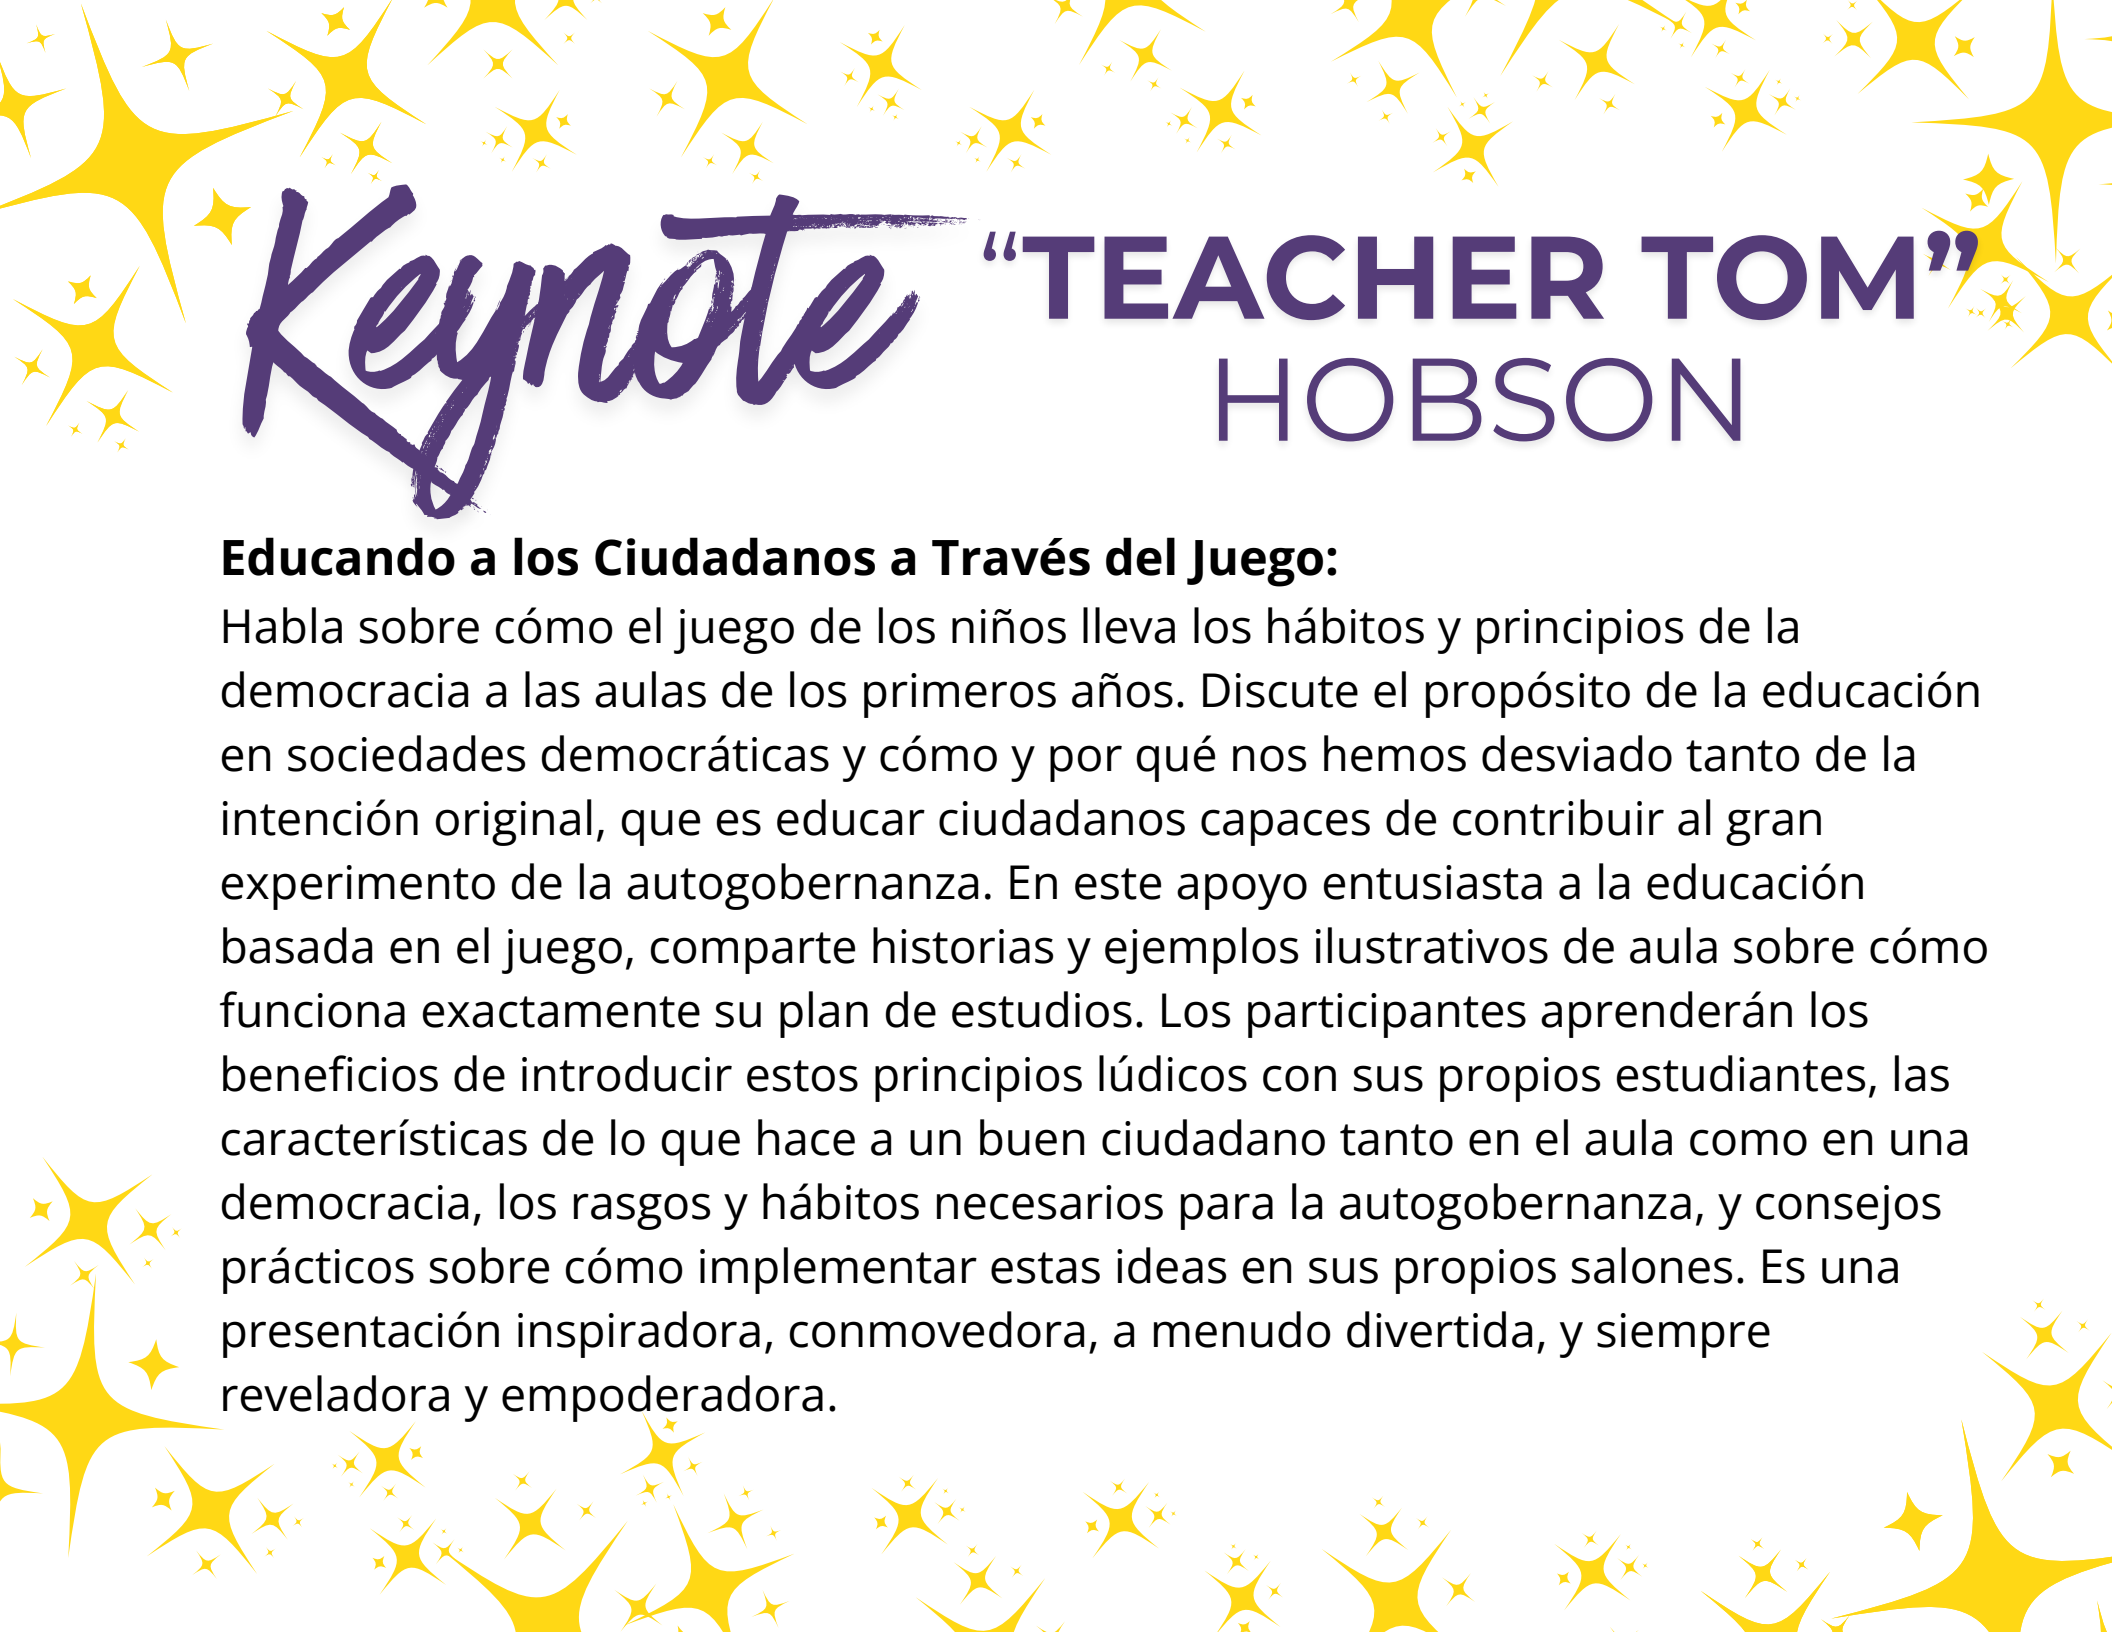

Speaks about how children's play brings the habits and principles of democracy into 'early years' classrooms. He discusses the purpose of education in democratic societies and how and why we have veered so far from the original intent, which is to educate citizens capable of contributing to the grand experiment of self-governance. In this full-throated support for play-based education, he shares illustrative classroom stories and examples of exactly how his curriculum works. Participants will learn the benefits of introducing these playful principles to their own students, the hallmarks of what makes a good citizen both in a classroom as well as a democracy, the traits and habits required for self-governance, and practical tips on how to implement these ideas in their own classrooms. It is an inspiring, touching, often hilarious, and always eye-opening and empowering presentation.

Keynote

"TEACHER TOM" HOBSON

"Teacher Tom" Hobson es reconocido internacionalmente como un referente en la educación infantil y es conocido por muchos como "la voz del aprendizaje basado en el juego". Maestro de preescolar durante casi dos décadas en Seattle, se hizo famoso gracias al Blog del Maestro Tom, que cuenta con unos 5,000 artículos que escribió sobre el aprendizaje basado en el juego, y donde sigue publicando varias veces a la semana. Es un conferencista muy solicitado, consultor educativo, formador de docentes, educador de padres y autor de dos libros exitosos. Comparte ampliamente su pedagogía a través de cursos para educadores de la primera infancia, padres y familias que educan en casa; organiza conferencias internacionales de educación infantil (por ejemplo, los Play Summits de Maestro Tom); asesora a organizaciones sobre sus programas de educación infantil, e inspira a audiencias de primeros años en eventos y conferencias alrededor del mundo.

The slide is decorated with numerous yellow starburst shapes of varying sizes, scattered across the top and bottom edges. The word "Keynote" is written in a large, purple, cursive script font.

Keynote

"TEACHER TOM" HOBSON

Educando a los Ciudadanos a Través del Juego:

Habla sobre cómo el juego de los niños lleva los hábitos y principios de la democracia a las aulas de los primeros años. Discute el propósito de la educación en sociedades democráticas y cómo y por qué nos hemos desviado tanto de la intención original, que es educar ciudadanos capaces de contribuir al gran experimento de la autogobernanza. En este apoyo entusiasta a la educación basada en el juego, comparte historias y ejemplos ilustrativos de aula sobre cómo funciona exactamente su plan de estudios. Los participantes aprenderán los beneficios de introducir estos principios lúdicos con sus propios estudiantes, las características de lo que hace a un buen ciudadano tanto en el aula como en una democracia, los rasgos y hábitos necesarios para la autogobernanza, y consejos prácticos sobre cómo implementar estas ideas en sus propios salones. Es una presentación inspiradora, conmovedora, a menudo divertida, y siempre reveladora y empoderadora.
